The Special Events Permit Unit (SEPU) of the Los Angeles Police Department is responsible for receiving and investigating applications for permits involving parades, processions, marches, demonstrations and assemblies. These permits are approved by the Board of Police Commissioners (Board). **If your event involves an athletic event or other activities not described above, you may require a Street/Lane Closure Permit from the Department of Public Works, Bureau of Street Services (BSS).** The BSS Street Use Inspection Division can be reached at (213) 847-6000.

Los Angeles Municipal Code Section §103.111 regulates procedures pertaining to permits approved by the Board. Event routes **MAY NOT EXCEED THREE (3) MILES** and applications will not be processed unless ALL of the following requirements are met:

- Applications should be submitted at least 40 days prior to the date of the event. However, no application will be accepted if it is received less than five (5) days prior to the date of the event;
- Applications will only be accepted if they are fully complete and legible;
- The signature of the applicant must be included (notarization is not required);
- If the applicant is not an employee or representative of the sponsoring organization, a written authorization from the Sponsoring Organization allowing the applicant to apply on its behalf must be included;
- A map of the event route should be provided and must match the route described on the application;
- Details describing all marching groups, props, parade elements, vehicles, floats, etc., must be included in the application;
- A signed "Hold Harmless" agreement must be submitted with the application.

To avoid unnecessary delays in approving your application, the below items must be received prior to the date of the event:

- ❑ A statement of the estimated traffic control costs from the Los Angeles Department of Transportation (commercial events);
- ❑ Proof of automobile insurance for each vehicle utilized in the parade;
- ❑ Proof of inspection by the Los Angeles Fire Department of all floats, vehicles, sound systems or other unique parade elements/props;
- ❑ Proof of payment of the clean up deposit paid to the Department of Public Works, Bureau of Street Services (if the event involves large animals, the sale of food/beverages or the erection of any structure).

Each permit includes requirements associated with the safe conduct of the event. These requirements are known as “Conditions and Restrictions.” Applicants **must acknowledge receipt and acceptance of the Conditions and Restrictions prior to the final approval of the permit.** Therefore, applicants are strongly encouraged to contact the SEPU staff to coordinate the receipt and acknowledgement of the Conditions and Restrictions.

To reduce the negative impact your event may have on nearby businesses and residences, applicants should contact the affected City Council District Office for further assistance and advice concerning community relations and notification requirements. Our intent is to assist you in holding your event, while at the same time ensuring that the rights of all people are respected. The decision to approve or deny a Special Event Permit is based on numerous factors including, but not limited to, the impact the event will have on business/residential access, emergency services and the overall affect on public safety. **Reasonable requirements concerning the time, place and manner of your event may be imposed.**

The City of Los Angeles may provide the temporary use of barricades, cones or other traffic control devices as needed to establish street closures associated with your event. However, it is normally the **event organizer’s responsibility to pick up, deliver and return all required traffic barricades and cones** (this does not include the responsibility of placing the barricades/cones in the street. Only qualified City personnel shall place or erect traffic control devices in the roadways). Therefore, it is imperative that applicants contact the BSS as soon as possible for instructions and advice concerning the number and availability of traffic barricades [(213) 847-6000].
